

## A New Era Has Come! A Sandbox on Your iPhone!

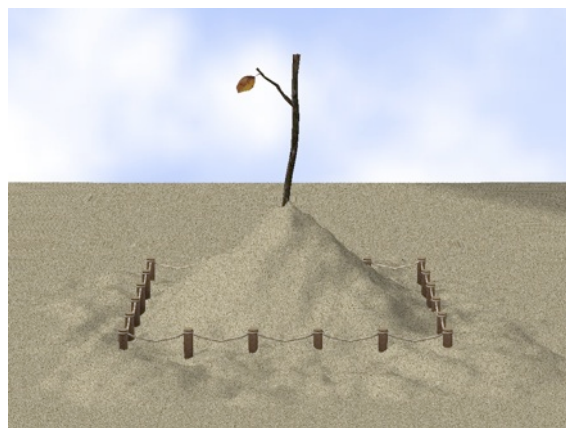

Phyzios, Inc. (Head Office: Bunkyo-ku, Tokyo; President: Kentaro Suto; hereinafter, "Phyzios") will release an iPhone/iPad application "Sandbox" on December 13, 2011. Build a mountain, a tunnel, or a sandcastle... Give full play to your imagination!

### What is "Sandbox"?

Sandbox is an iPhone/iPad app that lets you play with sand in various ways. In free-mode, you can play around in six types of sandboxes such as a normal sandbox, beach, Japanese garden, etc. Also, the app has five mini-games, for example "Treasure Hunting" and "Bury-A-Mole". Enjoy tapping sand and water flowing super-realistically, that only Phyzios's original physics simulation technology can make come true. You can save your sand-works in your iPhone as photos, and also post them in the gallery to share them with users from all over the world!

### Recommended Ways to Play

- Draw a picture on a sand-canvas
- Build tunnels digging sand with a shovel
- Play with 3D toys
- Share your sand-works in our gallery
- Build a huge sandcastle
- Create ponds
- Make a miniature world with 3D toys

# PHYZIOS

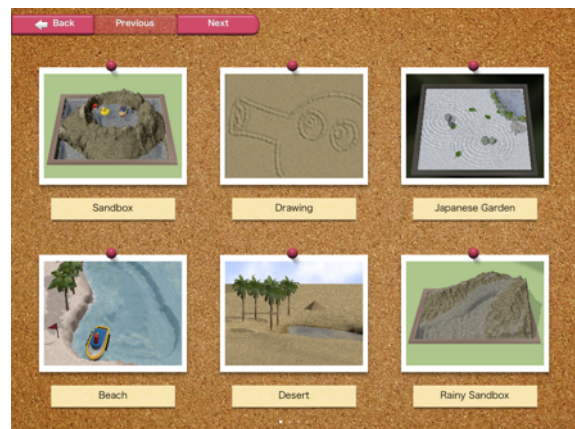

## Modes

### \* Free mode

- Sandbox: You can play around in a normal sandbox
- Beach: You can play around in a wave-lapping beach
- Rainy Sandbox: You can play around in a rainy sandbox
- Desert: You can play around in a dry-wind-blowing desert
- Japanese Garden: You can create a Japanese-style garden

### \* Mini-game mode

- Save-the-Stick: Scrape away as much sand as possible, keeping a stick from falling
- Treasure Hunting: Find treasures buried in a sandbox
- Clamming: Dig out as many seashells as possible
- Bury-A-Mole: Bury as many moles as possible into the sand
- Canal: Connect all the flags with streams of water as quickly as possible

## About us

Phyzios provides new types of entertainment, creation, and communication opportunities using the particle-based physics simulation technology developed originally by The University of Tokyo for industrial use. Phyzios has released several iPhone/iPad applications, including UKIYOE-Woodcut-" (Awarded App Store Rewind 2011 iPad/iPad App in Japan), "Little Piyo's Friend" (Awarded App Store Rewind 2011 iPhone Education App in Japan, jointly developed with GAKKEN Co. Ltd.), " SANRIO Characters SUNAE PARTY " (jointly developed with Sanrio Co. Ltd.), " Aqua Forest" (ranked No.1 in both the US and Japan, jointly developed with Hudson Soft Co. Ltd.), " PHYZIOS Studio" , and "PHYZIOS Sculptor" (ranked No.1 in Italy and No.2 in Japan). For more information, please visit our website at <http://www.phyzios.com/eng/index.html>
